

## **Nicholas**

I'm Nicholas Philipson, and here at TUCC I work as a student researcher. I have been involved with the United Church essentially since I was born. Since my mom is a minister, I understand the UC community very well. I wanted to apply the skills I learn in university in real life applications. Through this position my focus has been on the Collaborative Ministry Report where I've got to travel around Ontario doing in person interviews with United Church ministers.
